

# 2013 ASBMB HOPES WORKSHOP

Fostering Partnerships between Colleges, Universities and K-12 Schools

**Saturday, April 20, 2013**

**9:00 AM - 1:00 PM** (*lunch will be provided*)

Boston Convention & Exhibition Center, RM 251  
415 Summer Street, Boston, MA

The American Society for Biochemistry and Molecular Biology (ASBMB) Hands-on Opportunities to Promote Engagement in Science (HOPES) program is hosting its third annual workshop, Fostering Partnerships between Colleges, Universities and K-12 Schools, in Boston as part of the 2013 ASBMB Annual Meeting.

The workshop targets junior high and high school teachers and college/university faculty and researchers to promote collaborative partnerships that bring creative inquiry-based science curricula into K-12 classrooms. This workshop is especially designed for teachers,

faculty and researchers from the Boston area, but is open to anyone interested in science education. **Registration is free and lunch will be provided.**

Speakers will showcase successful HOPES funded partnerships, Boston area K-12 science education initiatives, as well as generate ideas for partnerships in the Boston area. Attendees will also be able to participate in a hands-on science demonstration.

Workshop attendees will also receive information regarding the 2013 ASBMB HOPES mini-grant applications available in May, 2013.

**REGISTER AT [WWW.ASBMB.ORG/HOPES2013](http://WWW.ASBMB.ORG/HOPES2013)**

**DOOR PRIZES!** We will be giving away LEGO Atoms and Molecules Sets to a few lucky teachers!
